

Gloria 4 New Features

- Added screen backlighting, to view the screen in the dark.
- Volume knob has no physical stop to prevent damage to the volume control.
- Improved instrument sounds. More instruments are available to the user (120).
- Improved speaker quality, better overall sound quality.
- Volume balanced across the CSG hymnal, so all the hymns play at similar volumes.
- Improved user control on individual track volumes.
- Added <Extra bass> setup option.
- Added <Melody 110%> setup option.
- Added global key change setup option.
- Added Romanian language.
- Added battery level display.
- Improved screen messages and displays throughout.
- Added options for more alternate tunes (when creating hymnals).
- Simplified the process for updating software, instruments and hymnals.
- Created tools and documentation for users to add their own hymnals.
